Volume 290, no. 1

Guidelines for the submission of manuscripts v

Neuronal oxidative hypometabolism in the brainstem of the epaulette shark (*Hemiscyllium ocellatum*) in response to hypoxic pre-conditioning
J.M. Mulvey, G.M.C. Renshaw (Australia) 1

Successful generation of peripheral neuropathy with onion-bulb formation in the macrophage scavenger receptor classA knockout mouse treated with isoniazid
I. Naba, H. Yoshikawa, S. Sakoda, H. Itabe, H. Suzuki, T. Kodama, T. Yanagihara (Japan) 5

Potassium channel openers prevent β-amyloid toxicity in bovine vascular endothelial cells
X. Chi, E.T. Sutton, G. Hellermann, J.M. Price (USA) 9

Improvement of presurgical patient evaluation by generation of functional magnetic resonance risk maps
R. Beisteiner, R. Lanzenberger, K. Novak, V. Edward, C. Windischberger, M. Erdler, R. Cunnington, A. Gartus, B. Streibl, E. Moser, T. Czech, L. Deecke (Austria) 13

Ultrastructure and function of the amoeboid microglial cells in the periventricular white matter in postnatal rat brain following a hypoxic exposure
C. Kaur, Y. You (Singapore) 17

Effects of a traditional Chinese medicine, Qing Nao Yi Zhi Fang, on glutamate excitotoxicity in rat fetal cerebral neuronal cells in primary culture
J. Zhang, L. Li, X. Chen, B. Zhang, Y. Wang, K. Yamamoto (China, Japan) 21

Protein kinase A activity is required for depolarization-induced proline-rich tyrosine kinase 2 and mitogen-activated protein kinase activation in PC12 cells
J.H. Park, J.K. Park, K.W. Bae, H.T. Park (South Korea) 25

Long-term treatment with haloperidol decreases the mRNA levels of complexin I, but not complexin II, in rat prefrontal cortex, nucleus accumbens and ventral tegmental area
T. Nakahara, K. Motomura, K. Hashimoto, H. Ueki, L. Gotoh, H. Hondo, T. Tsutsumi, T. Kuroki, M. Hirano, H. Uchimura (Japan) 29

Repeated administration of high dose levodopa enhances hydroxyl radical production in the rat striatum denervated with 6-hydroxydopamine
Y. Ishida, H. Hashiguchi, K. Todaka, Y. Ishizuka, Y. Mitsuyama (Japan) 33

Dynorphin modulates dopamine D1-receptor mediated turning behavior in 6-hydroxydopamine-lesioned rats
S.V. van de Witte, H.J. Groenewegen, B. Drukarch, P. Voorn (Netherlands) 37

Accumulation of human α-synuclein in different cytoskeletons in Lewy bodies in brains of dementia with Lewy bodies
E. Iseki, W. Marui, H. Sawada, K. Uéda, K. Kosaka (Japan) 41

Inhibition of the central heme oxygenase-carbon monoxide pathway increases 2-deoxy-D-glucose-induced hypothermia in rats
M.C. Almeida, L.G.S. Branco (Brazil) 45

An antisense investigation of the role of the γ-aminobutyric $acid_{B1}$ receptor subunit in Ca^{2+} channel modulation in rat sensory neurones
K.S.P. Hand, N.C. Harris, A.E. Spruce (UK) 49

Independence of force production by digits of the human hand
K.T. Reilly, G.R. Hammond (Australia) 53

Topical acetyl salicylate and dipyrone attenuate neurogenic protein extravasation in rat skin in vivo
M. Schmelz, S. Weber, M. Kress (Germany) 57

Brain activation profiles in dyslexic children during non-word reading: a magnetic source imaging study
P.G. Simos, J.I. Breier, J.M. Fletcher, B.R. Foorman, E. Bergman, K. Fishbeck, A.C. Papanicolaou (USA) 61

Effects of spectral complexity and sound duration on automatic complex-sound pitch processing in humans – a mismatch negativity study
M. Tervaniemi, E. Schröger, M. Saher, R. Näätänen (Finland, Germany) 66

Regulation and immunhistochemical localization of nitric oxide synthases and soluble guanylyl cyclase in mouse spinal cord following nociceptive stimulation
C. Maihöfner, C. Euchenhofer, I. Tegeder, K.F. Beck, J. Pfeilschifter, G. Geisslinger (Germany) 71

mRNA expression of kidney-specific ClC-K1 chloride channel in single-cell reverse transcription-polymerase chain reaction analysis of outer hair cells of rat cochlea
E. Kawasaki, N. Hattori, E. Miyamoto, T. Yamashita, C. Inagaki (Japan) 76
Mechanical and thermal hypersensitivity develops following kainate lesion of the ventral posterior lateral thalamus in rats
C.J. LaBuda, T.D. Cutler, P.M. Dougherty, P.N. Fuchs (USA) 79

Corrigendum 84

Volume 290, no. 2

Response of the rabbit diaphragm to tendon vibration
Y. Jammes, S. Arbogast, A.V. De Troyer (France, Belgium) 85
Changes in apoptosis-related protein (p53, Bax, Bcl-2 and Fos) expression with DNA fragmentation in the central nervous system in rats after closed head injury
J. Lu, S. Moochhala, C. Kaur, E.-A. Ling (Singapore) 89
Localization of flotillins in human brain and their accumulation with the progression of Alzheimer's disease pathology
H. Kokubo, C.A. Lemere, H. Yamaguchi (Japan, USA) 93
Effects of lanthanides on voltage-dependent potassium currents in bullfrog sympathetic neurons
T. Hirasawa, S. Kotani, T. Suzuki, K. Sato, M. Sakakibara, T. Tokimasa (Japan) 97
Mismatch negativity and behavioural discrimination in humans as a function of the magnitude of change in sound duration
M. Jaramillo, P. Paavilainen, R. Näätänen (Finland) 101
Early-onset tolerance in rat global cerebral ischemia induced by a mitochondrial inhibitor
H. Nakase, A. Heimann, R. Uranishi, M.W. Riepe, O. Kempski (Germany, Japan) 105
Acute stress decreases serotonin transporter mRNA in the raphe pontis but not in other raphe nuclei of the rat
B. Vollmayr, S. Keck, F.A. Henn, P. Schloss (Germany) 109
Stimulation of synaptosomal D-[^{3}H]aspartate transport by substance P in rat brain
J. Healy, A. Downes, G.J. McBean (Ireland) 113
Examination of the human prion protein-like gene *Doppel* for genetic susceptibility to sporadic and variant Creutzfeldt–Jakob disease
S. Mead, J. Beck, A. Dickinson, E.M.C. Fisher, J. Collinge (UK) 117
Expression of mineralocorticoid and glucocorticoid receptor mRNA in the human hippocampus
M. Watzka, S. Beyenburg, I. Blümcke, C.E. Elger, F. Bidlingmaier, B. Stoffel-Wagner (Germany) 121
Expression of invariant chain and pro-cathepsin L in Alzheimer's brain
Y. Yoshiyama, K. Arai, T. Oki, T. Hattori (Japan, USA) 125
Mediation of spinal nerve injury induced tactile allodynia by descending facilitatory pathways in the dorsolateral funiculus in rats
M.H. Ossipov, H. Sun, T.P. Malan Jr., J. Lai, F. Porreca (USA) 129
Cross-desensitization of capsaicin-evoked oral irritation by high but not low concentrations of nicotine in human subjects
J.M. Dessirier, H.-K. Chang, M. O'Mahony, E. Carstens (USA) 133
Morphine and gabapentin decrease mechanical hyperalgesia and escape/avoidance behavior in a rat model of neuropathic pain
C.J. LaBuda, P.N. Fuchs (USA) 137
Cutaneous vascular bed is not involved in arterial pressure changes elicited by increasing or decreasing the activity of inhibitory vasomotor neurons in caudal ventrolateral medulla in rabbits
W.W. Blessing, E. Nalivaiko (Australia) 141
Non-weight-bearing condition arrests the morphological and metabolic changes of rat soleus motoneurons during postnatal growth
H. Nakano, S. Katsuta (Japan) 145
Expression and subcellular localization of multifunctional calmodulin-dependent protein kinases-I, -II and -IV are altered in rat hippocampal CA1 neurons after induction of long-term potentiation
B.Y. Ahmed, F. Yamaguchi, T. Tsumura, T. Gotoh, K. Sugimoto, Y. Tai, R. Konishi, R. Kobayashi, M. Tokuda (Japan) 149
No genetic association between alpha-2 macroglobulin I1000V polymorphism and Japanese sporadic Alzheimer's disease
N. Shibata, T. Ohnuma, T. Takahashi, E. Ohtsuka, A. Ueki, M. Nagao, H. Arai (Japan) 154

Volume 290, no. 3

Muscle pain activates a direct projection from ventrolateral periaqueductal gray to rostral ventrolateral medulla in rats
K.A. Keay, Q.F. Li, R. Bandler (Australia) 157
Intracerebroventricular administration of the β_3-adrenoceptor agonist CL 316243 causes Fos immunoreactivity in discrete regions of rat hypothalamus
M. Castillo-Meléndez, M.J. McKinley, R.J. Summers (Australia) 161
Adenosine triphosphate mobilizes cytosolic calcium and modulates ionic currents in mouse taste receptor cells
Y.V. Kim, Y.V. Bobkov, S.S. Kolesnikov (Russia) 165

Glycogen is mobilized during the disposal of peroxides by cultured astroglial cells from rat brain
B. Rahman, L. Kussmaul, B. Hamprecht, R. Dringen (Germany) 169

Identification of phosphorylated form of cAMP/calcium response element binding protein expression in the brain stem nuclei at early stage of vestibular compensation in rats
M.S. Kim, J.H. Kim, M.Y. Lee, S.W. Chun, S.H. Lee, B.R. Park (South Korea) 173

Angiotensin I converting enzyme polymorphism in humans with age-associated memory impairment: relationship with cognitive performance
D. Bartrés-Faz, C. Junqué, I.C. Clemente, A. López-Alomar, N. Valveny, A. López-Guillén, T. López, M.J. Cubells, P. Moral (Spain) 177

The synchronization of human arm movements to external events
M.J. Buekers, H.P. Bogaerts, S.P. Swinnen, W.F. Helsen (Belgium) 181

The endogenous survival promotion of axotomized rat corticospinal neurons by brain-derived neurotrophic factor is mediated via paracrine, rather than autocrine mechanisms
A. Schütte, Q. Yan, P. Mestres, K.M. Giehl (Germany, USA) 185

Changes in phosphoinositide signalling activity and levels of the alpha subunit of $G_{q/11}$ protein in rat brain induced by E-5842, a $sigma_1$ receptor ligand and potential atypical antipsychotic
G. Romero, M.P. Pérez, A. Carceller, X. Monroy, A.J. Farré, X. Guitart (Spain) 189

Evidence of the synthesis of opioid receptor like 1 receptor in nociceptinergic neurons in rat brain suggests the existence of autoreceptor: a confocal double staining study
Y.-Q. Wang, J.-L. Wang, C.-B. Zhu, X.-D. Cao, G.-C. Wu (China) 193

Bis(7)-tacrine, a promising anti-Alzheimer's agent, reduces hydrogen peroxide-induced injury in rat pheochromocytoma cells: comparison with tacrine
X.Q. Xiao, N.T.-K. Lee, P.R. Carlier, Y.-P. Pang, Y.F. Han (China, USA) 197

Protein kinase C activation by phorbol ester increases in vitro invasion through regulation of matrix metalloproteinases/tissue inhibitors of metalloproteinases system in D54 human glioblastoma cells
M.-J. Park, I.-C. Park, J.-H. Hur, C.-H. Rhee, T.-B. Choe, D.-H. Yi, S.-I. Hong, S.-H. Lee (South Korea) 201

Photostimulation affects gonadotropin-releasing hormone immunoreactivity and activates a distinct neuron population in the hypothalamus of the mallard
P. Péczely, K.J. Kovács (Hungary) 205

Glufosinate ammonium stimulates nitric oxide production through *N*-methyl D-aspartate receptors in rat cerebellum
T. Nakaki, A. Mishima, E. Suzuki, F. Shintani, T. Fujii (Japan) 209

Erythropoietin protects cultured cortical neurons, but not astroglia, from hypoxia and AMPA toxicity
A.D. Sinor, D.A. Greenberg (USA) 213

Asymmetrical visual fields distribution of attention in dyslexic children: a neuropsychological study
A. Facoetti, M. Turatto (Italy) 216
